

Explorer Plus  
a new dimension  
in play

a\_space

# Explorer Plus a new dimension in play.

Innovation, quality, usability and fun were key drivers in the development of the Explorer Plus range.

The Explorer Plus range is designed to suit children of all ages. a\_space has combined the flexibility and challenge of Explorer Nets with much loved play items such as monkey bars, bridges, climbers, steppers and slides.

Proudly manufactured in Australia by a\_space, Explorer Plus is available in a range of configurations.

The unique, contemporary design and colour range offers a point of difference for open spaces.

The Explorer Plus configurations were designed to offer users a myriad of ways to play, while the nets also serve as a creative 'hangout' space to encourage balance and social interaction.

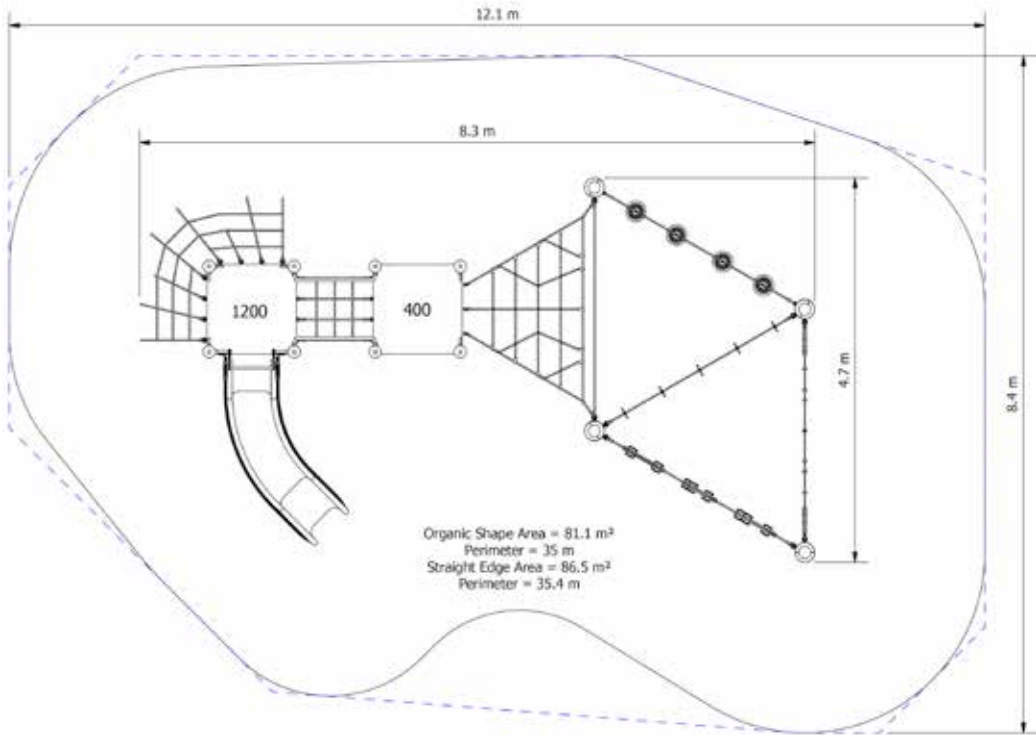

# Explorer Plus configurations

Careful consideration has been given to ensure the Explorer Plus configurations can accommodate a broad range of spaces, budgets and levels of challenge.

From the compact Tamar Valley, to the mega structure that is Nepean Gorge, the configurations are presented in size order to help you find a solution for any space.

Each bears the name of a famous Australian natural landmark, which speaks to the unique climbing challenge each one offers.

Tamar Valley

## Equipment\_

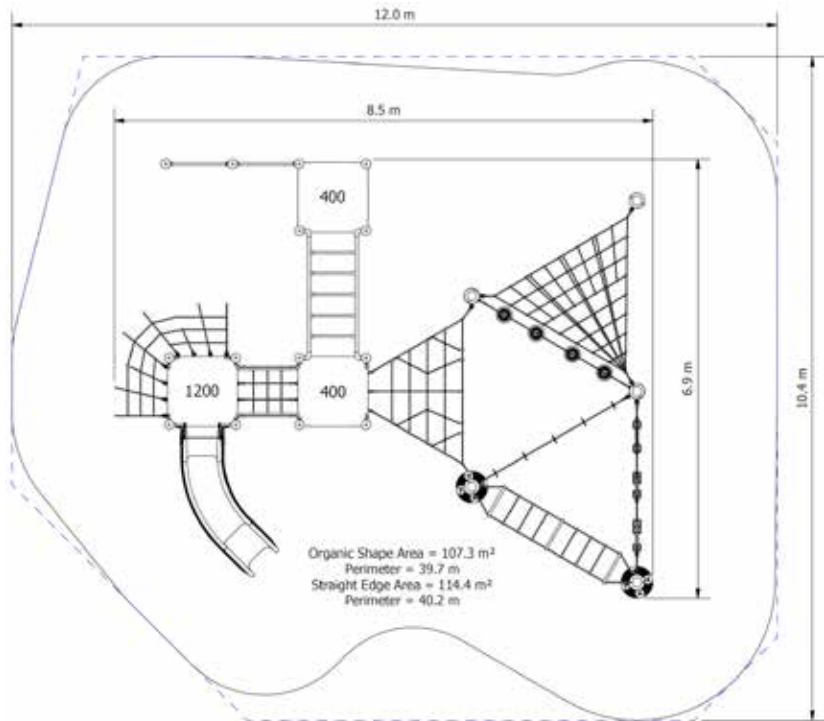

- Cascade Rope Net
- Curved Slide 1200 with HDPE Sides
- Cable Rope Net Climber
- Explorer Hopping Islands
- Explorer Monkey Rings
- Explorer Rock Wall
- Explorer Web Wall
- Explorer Link Up to Deck
- Explorer Tight Rope
- Square Platform x 2

## Specifications\_

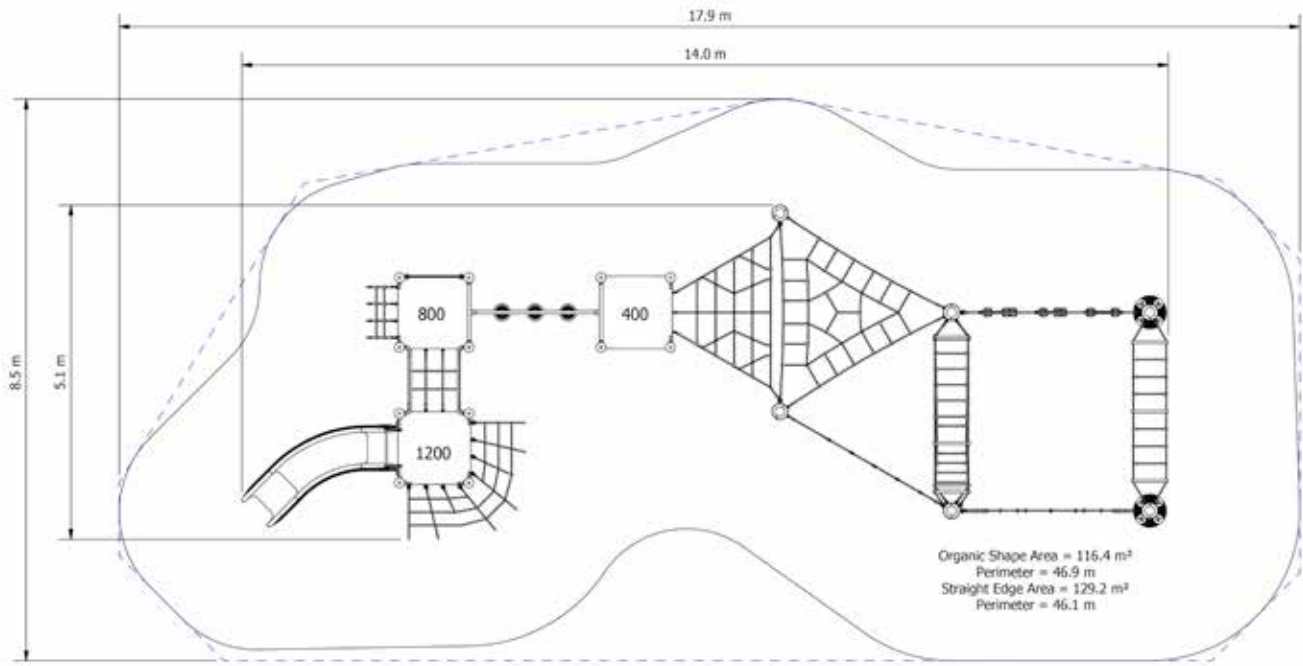

- Age range\_**  
5 - 16
- Max. Equipment height\_**  
2705mm
- Max. free height of fall\_**  
2245mm
- Required space:\_**  
12.1m x 8.4m  
Area: 81.1m2

Brumby Pass

Cedar Valley

Equipment\_

- Curved Slide 1200 with HDPE Side
- Cable Rope Net Climber
- Explorer Hopping Islands
- Explorer Rock Wall
- Monkey Bar Arched 2000
- Explorer Overhead Challenge Junior
- Explorer Link Up to Deck
- Explorer Monkey Rings
- Explorer Ascend Climber Left
- Twirl Bar
- Spin Bar
- Cascade Rope Net
- Square Platform x 3

Specifications\_

Age range_
5 - 16
Max. Equipment height_
2705mm
Max. free height of fall_
2215mm
Required space:_
12m x 10.4m
Area: 107.3m2

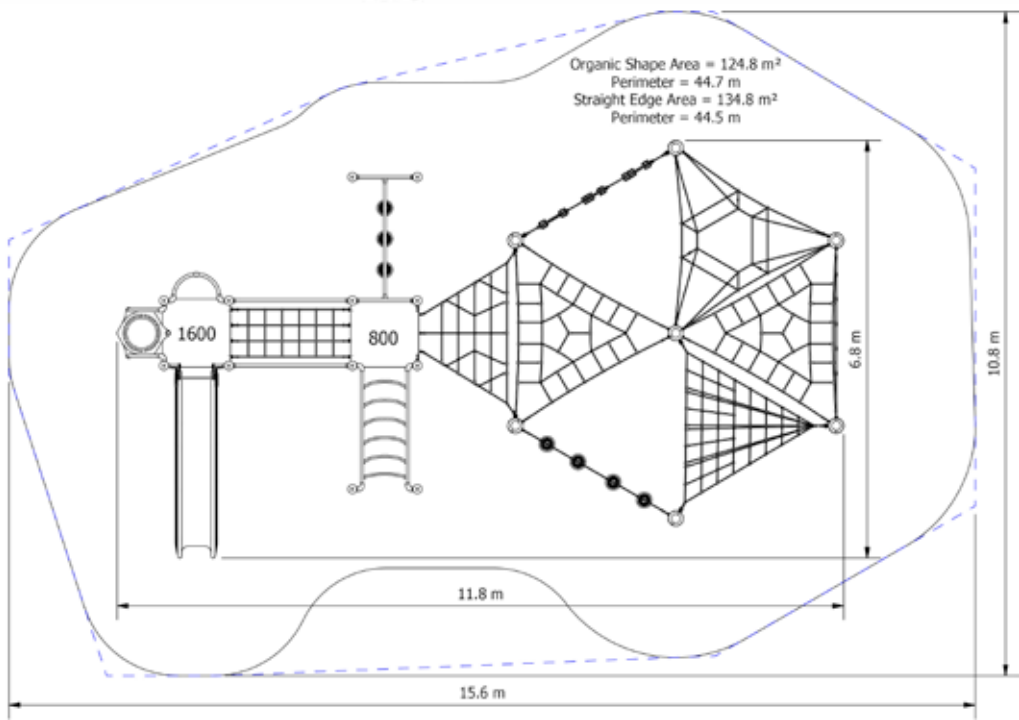

Equipment\_

- Pommel Walk
- Cascade Rope Net
- Cable Rope Net Climber x 2
- Curved Slide with HDPE Sides
- Explorer Trail Crossing
- Explorer Rock Wall
- Explorer Overhead Challenge Junior
- Explorer Web Wall
- Explorer Link Up to Deck
- Explorer Slalom Passage
- Explorer Parkour Tri Low
- GEO Barrier
- Square Platform x 3

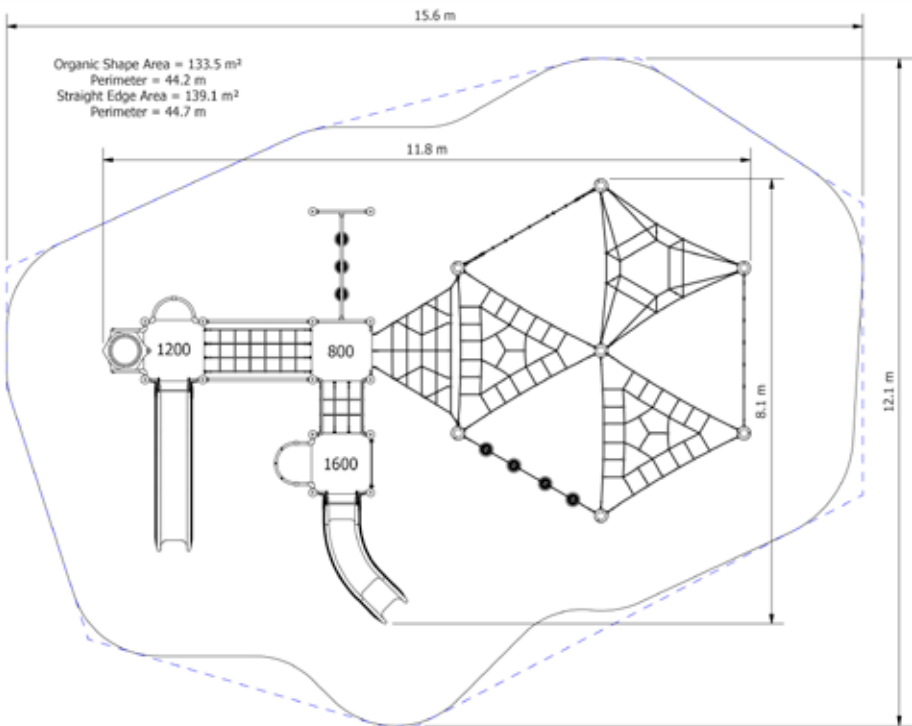

Specifications\_

Age range_
5 - 16
Max. Equipment height_
2925mm
Max. free height of fall_
2315mm
Required space:_
17.9m x 8.5m
Area: 116.4m2

Simpsons Gap

Indigo Valley

Equipment\_

- Pommel Walk
- Cable Rope Net Climber
- Climbing Rings
- Big Dipper Slide with HDPE sides
- Sliding Pole
- Explorer Geo Maze
- Explorer Parkour Tri Low
- Explorer Hopping Islands
- Explorer Ascend Climber Right
- Explorer Parkour Tri High
- Explorer Rock Wall
- Half Ring Climber
- Explorer Link up to 800 Deck
- Explorer Slalom Passage
- Square Platform x 2

Specifications\_

**Age range\_**  
5 - 16

**Max. Equipment height\_**  
3075mm

**Max. free height of fall\_**  
2285mm

**Required space:\_**  
15.6m x 10.8m  
Area: 124.8m2

Equipment\_

- Pommel Walk
- Cable Rope Net Climber x 2
- Curved Slide 1200 with HDPE Sides
- Curved Cable Rope Net Climber
- Climbing Rings
- Big Dipper Slide with HDPE Sides
- Sliding Pole
- GEO Barrier
- Explorer Geo Maze
- Explorer Parkour Tri Low x 2
- Explorer Hopping Islands
- Explorer Slalom Passage
- Explorer Web Wall
- Explorer Link Up to Deck
- Square Platform x 3

Specifications\_

**Age range\_**  
5 - 16

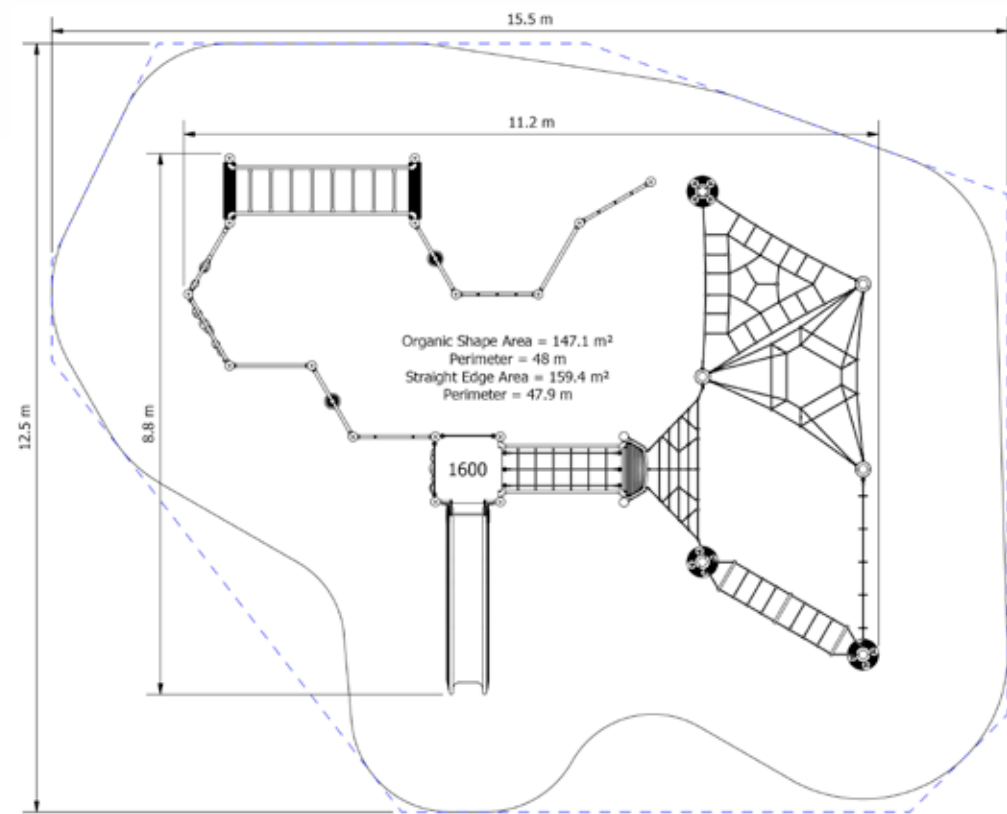

**Max. Equipment height\_**  
3075mm

**Max. free height of fall\_**  
2385mm

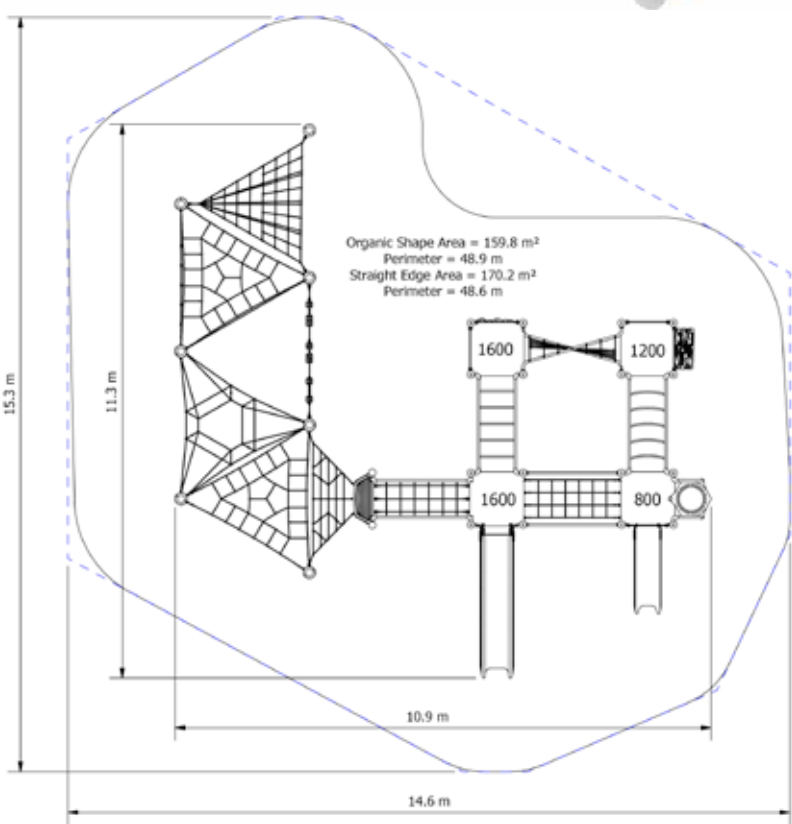

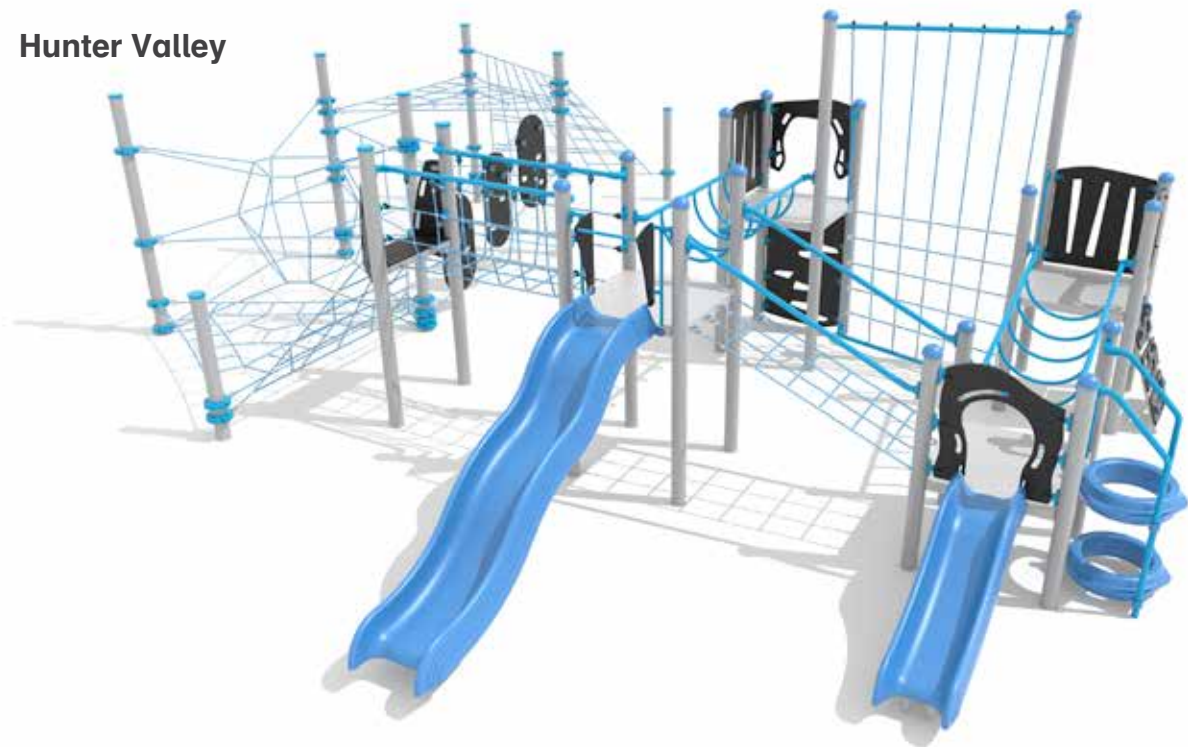

**Required space:\_**  
15.6m x 12.1m  
Area: 133.5m2

Clare Valley

Hunter Valley

Equipment\_

- Full Net Climber
- Pommel Ladder x 2
- Rope Ladder
- Rope & Ring Web x 2
- Freestanding Rock Wall & Ladder
- Freestanding Rock Wall
- Half Net Climber
- Rock Wall with Entry
- Big Dipper Slide with HDPE Sides
- Explorer Parkour Tri Low
- Explorer Geo Maze
- Monkey Bar
- Landing Step x 2
- Explorer Link Across to deck
- Explorer Monkey Rings
- Explorer Overhead Challenge Senior
- Square Platform
- Geo Barrier
- Additional Explorer Landing Pad

Specifications\_

Age range_
5 - 16
Max. Equipment height_
2705mm
Max. free height of fall_
2532mm
Required space:_
15.5m x 12.5m
Area: 147.1m2

Equipment\_

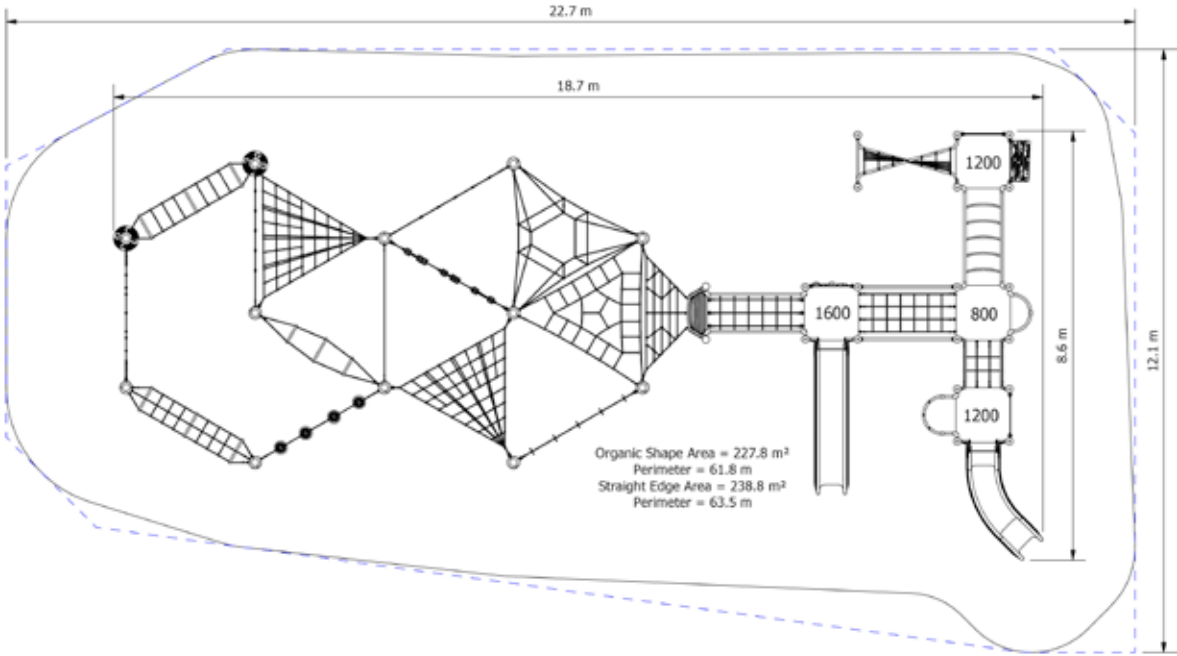

- Cable Rope Net Climber
- Big Dipper Slide with HDPE Sides
- Half Ring Climber
- Rock Wall with Entry
- Rock n Hole Climber with Entry
- Twister Net
- Half Ring Climber
- Geo Barrier x 2
- Straight Slide
- Climbing Rings
- Explorer Parkour Tri High
- Explorer Parkour Tri Low
- Explorer Geo Maze
- Explorer Tight Rope
- Explorer Rock Wall
- Explorer Slalom Passage
- Explorer Ascend Climber Right
- Explorer Link Across to Deck
- Square Platform x 4

Specifications\_

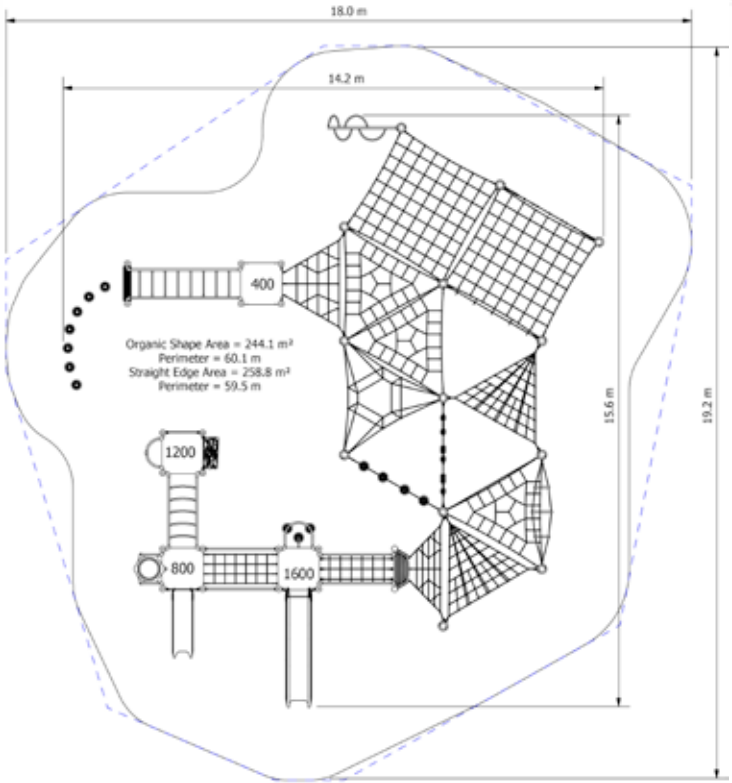

Age range_
5 - 16
Max. Equipment height_
3675mm
Max. free height of fall_
2532mm
Required space:_
14.6m x 15.3m
Area: 159.8m2

Bromley Basin

Eden Valley

Equipment\_

- Cable Rope Net Climber x 2
- Curved Cable Rope Net Climber
- Big Dipper Slide with HDPE Sides
- Half Ring Climber
- Rock Wall
- Twister Net
- Rock n Hole Climber with Entry
- Curved Slide with HDPE Sides
- Explorer Slalom Passage x 2
- Explorer Web Wall
- Explorer Chasm Crossing Senior
- Sliding Pole
- Explorer Hopping Islands
- Explorer Challenger Bridge
- Explorer Tight Rope
- Explorer Geo Maze
- Explorer Overhead Challenge Senior
- Explorer Rock Wall
- Explorer Ascend Climber Right
- Explorer Monkey Rings
- Explorer Ascend Climber Left
- Explorer Parkour Tri Low
- Explorer Link Across to Deck
- Geo Barrier x 2
- Square Platform x 4

Specifications\_

Age range\_  
5 - 16

Max. Equipment height\_  
3675mm

Max. free height of fall\_  
2532mm

Required space:\_  
22.7m x 12.1m  
Area: 227.8m2

Equipment\_

- Cable Rope Net Climber
- Half Ring Climber
- Geo Barrier
- Rock n Hole Climber with Entry
- Straight Slide with HDPE Entry Panel
- Climbing Rings
- Pommel Tri Pole Climber
- Big Dipper Slide with HDPE Sides
- Sliding Pole
- Stepping Stone x 7
- Monkey Bar Arched
- Landing Step
- Explorer Flow Crossing
- Explorer Challenger Bridge
- Explorer Tight Rope
- Explorer Geo Maze
- Explorer Parkour Tri Low x 2
- Explorer Parkour Tri High
- Explorer Rock Wall
- Explorer Ascend Climber Left x 2
- Explorer Worm Climber
- Explorer Link Across to Deck
- Explorer Link up to Deck
- Explorer Cargo Net High
- Explorer Web Wall
- Explorer Monkey Rings
- Explorer Hopping Islands
- Square Platform x 4

Specifications\_

Age range\_  
5 - 16

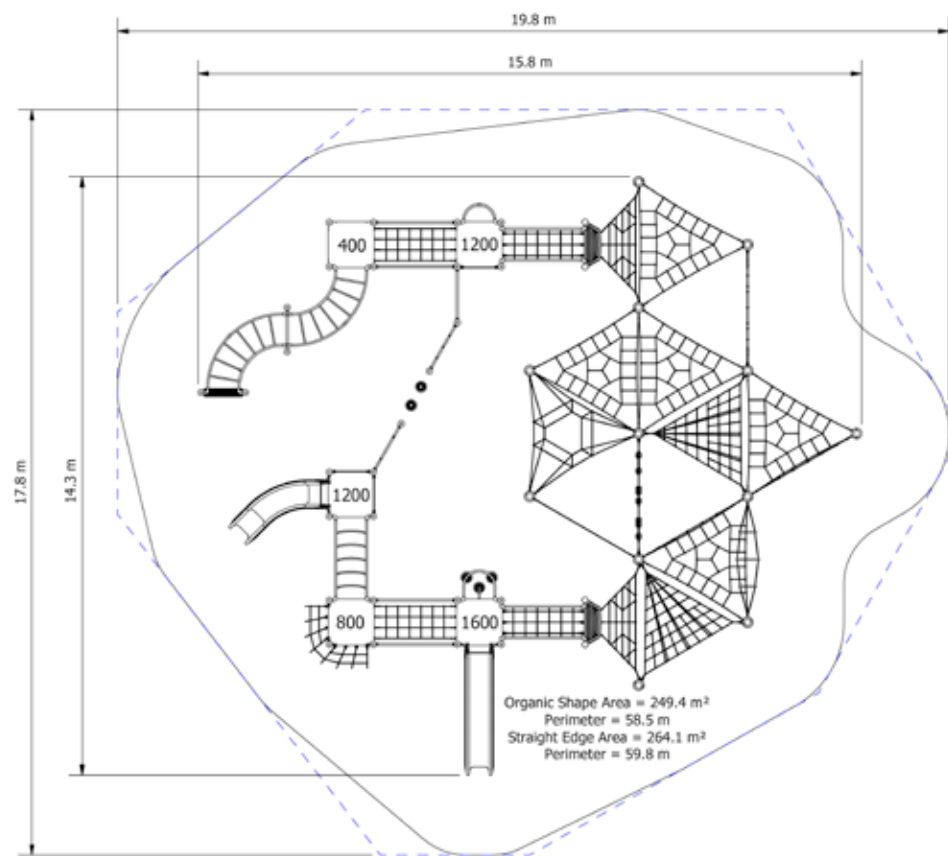

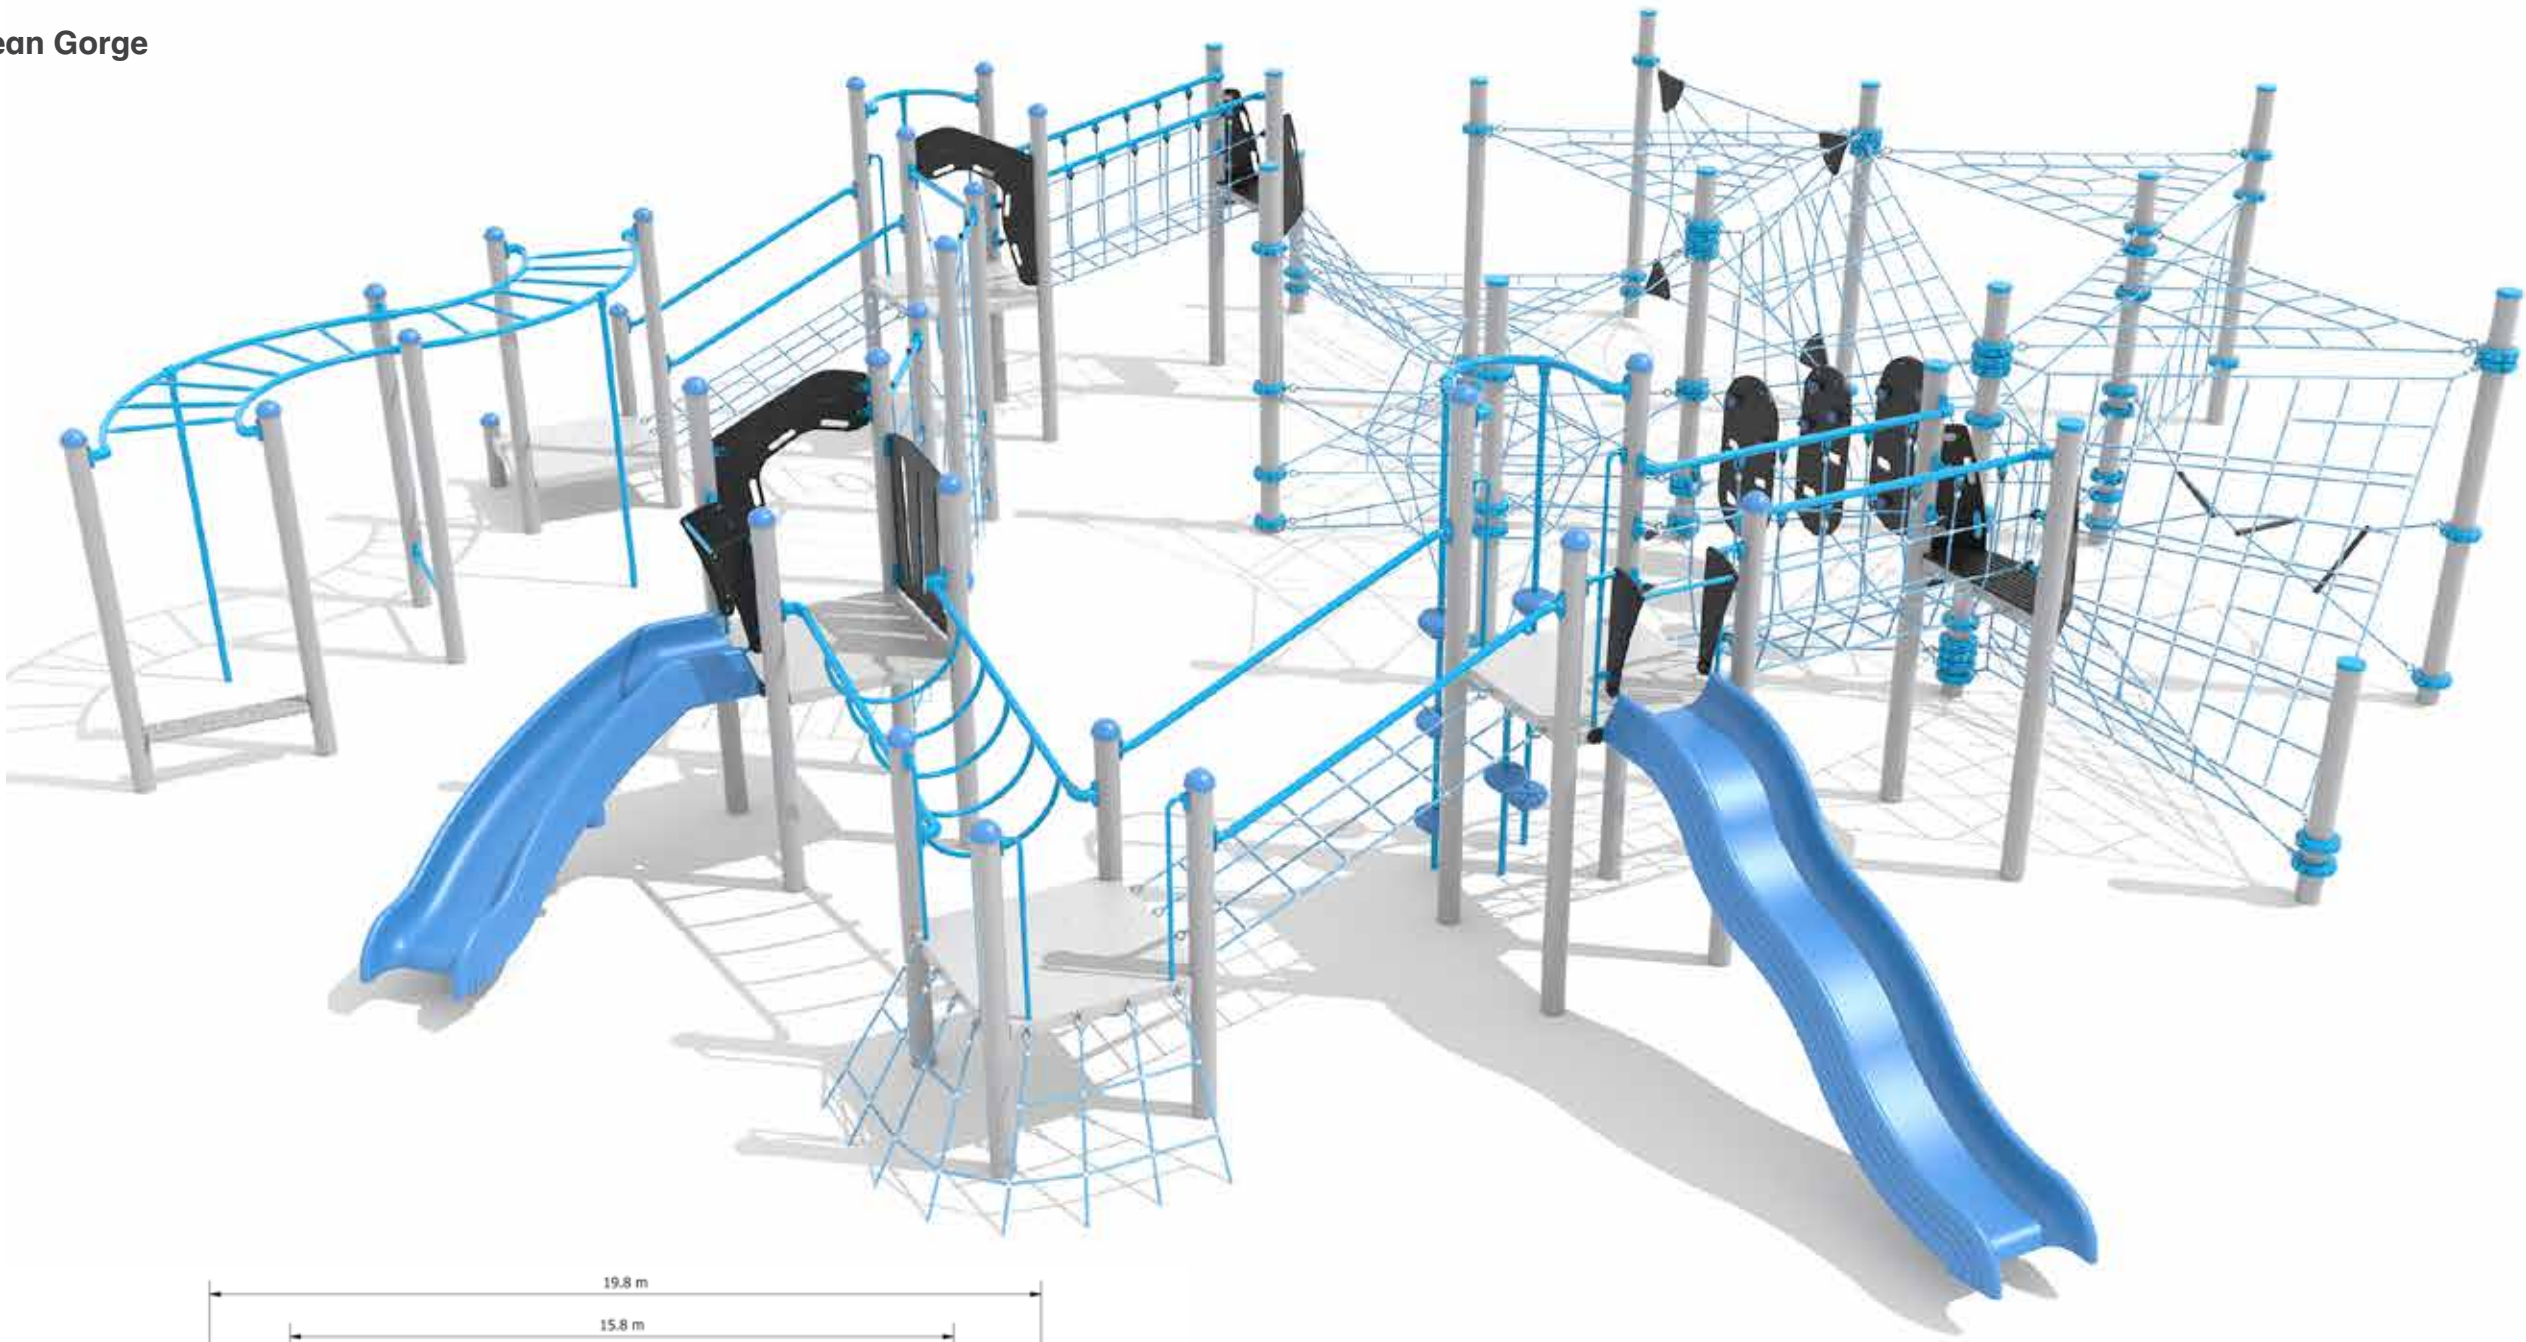

Max. Equipment height\_  
3075mm

Max. free height of fall\_  
2565mm

Required space:\_  
18m x 19.3m  
Area: 244.1m2

Nepean Gorge

Equipment\_

- Cable Rope Net Climber
- Half Ring Climber
- Pommel Tri Pole Climber
- Big Dipper Slide with HDPE Sides
- Sliding Pole
- Landing Step
- Rope Ladder
- Rope and Ring Web
- Half Net Climber
- Side Access Panel x 2
- GEO Barrier
- Cable Rope Net Climber
- Monkey Bar Senior
- Curved Slide with HDPE Sides
- Cascade Rope Net
- Stepping Stone x 2
- Explorer Challenger Bridge
- Explorer Tight Rope
- Explorer Slalom Passage x 2
- Explorer Geo Maze
- Explorer Parkour Tri Low x 2
- Explorer Parkour Tri High x 3
- Explorer Rock Wall
- Explorer Ascend Climber Left x 2
- Explorer Web Wall
- Explorer Link Across to Deck
- Explorer Link Down to Deck
- Square Platform x 5

Specifications\_

Age range_
5 - 16
Max. Equipment height_
3075mm
Max. free height of fall_
2532mm
Required space_
19.8m x 17.8m
Area: 249.4m2

# Colour Schemes

A standard range of attractive colour schemes has been created to simplify the specifying and selection process.

The colour combinations offer either black or silver posts.

**Rope Colours available:**

Black, Blue, Red, Green

**Black and Green**

**Silver and Green**

**Black and Blue**

**Silver and Blue**

**Black and Orange**

**Silver and Orange**

**Black and Red**

**Silver and Red**

# Quality and safety

The Explorer Plus range has been developed placing the interests of children first.

Creating fun, innovative and rewarding experiences in play is our starting point. We build on that with a focus on physical and emotional development - including balance, agility, coordination and social skills for healthy and active lives.

Every design has been subjected to rigorous engineering and compliance tests to ensure they meet applicable Standards, the primary one being the Australian playground safety standard AS4685.

Our quality systems and processes are certified to International Standard ISO9001.

## The highest quality materials and components

a\_space use high quality Australian manufactured steel and aluminium which is powder coated after fabrication.

For coastal locations we offer a ‘marine grade’ option, this provides a higher level of corrosion protection. By substituting some steel elements with aluminum, and applying hot dip galvanising to other steel elements, your Explorer Plus configuration will stand up to extreme conditions here in Australia.

Our nets use the highest quality wire core rope, sourced from the world’s best manufacturers in Europe. a\_space use aluminium joiners and fittings as standard, as opposed to plastic joiners used by others. Our unique heavy-duty cast aluminium clamp system is designed to withstand years of robust play.

## Technical Specifications

Category	Description
Posts supporting Explorer Nets	140OD x 5mm <b>Maxitube</b> Steel suitable for coastal environments. Dulux (or similar) polyester powder coating Heavy duty cast aluminium caps
Other Posts and steel components	Various diameter galvanised steel Rotomoulded post caps
Rope	European steel core with heavy duty nylon braided casing
Clamps	Cast aluminium coated with polyester powder coating finish
Explorer Nets rungs	Machined solid <b>Delrin</b> rod. <b>Delrin</b> is light weight, durable and remains rigid under load
Climbing rings	Cast aluminium
Platforms	Galvanised steel sheet with polyester powder coating finish
Slides	Rotomoulded UV stabilised polyethylene
Pommels	Rotomoulded UV stabilised polyethylene
‘Marine Grade’ option	Posts other than those supporting Explorer Nets: aluminium tube with polyester powder coating finish Other steel components: hot dip galvanised steel with polyester powder coating finish Steel platforms exchanged for aluminium platforms with polyester powder coating finish

# Complete project delivery

We're focused on making your project a complete success.

We can seamlessly take your project from start to finish. Our complete project delivery includes installation, a range of undersurfacing options, shade structures and landscaping.

Our experienced project management team will ensure you are kept informed throughout, and that all work undertaken complies with strict work health and safety requirements.

Shade Structures

Rubber Undersurfacing
