

# Log Double Swing

Manufacturers Information | A-SWG-2229

## Material Specifications

<b>Posts</b>	Ironbark Timber
<b>Crossbar</b>	Stainless Steel
<b>Seat</b>	Rubber with stainless steel fittings
<b>Chains</b>	Stainless Steel
<b>Fixings and footings</b>	Stainless Steel

## Equipment Specifications

<b>Free Height of Fall</b>	1500mm
<b>Fall Zone Size</b>	3600mm x 8000mm
<b>Highest Point</b>	2275mm

## Other Required Information

<b>Treatments</b>	Available to order
<b>Largest Part</b>	Oiled Cabots Aquadeck Natural or similar
<b>Heaviest Part</b>	41 kg + Machinery Assistance

## Standards

AS 4685 2021 Series

## Applications

<b>Age Group</b>	3 years +
<b>Supervision Level</b>	Young children should be supervised and inappropriate activities discouraged
<b>Playspaces</b>	Public parks, schools, early childhood centres commercial play areas
<b>Environment</b>	Shade preferred for user comfort and protection.
<b>Vandalism Resistance</b>	Low susceptibility

## Please note

Our Natura Play Elements ranges are made as original pieces, not mass-produced. The character of each piece will be affected by the individual timber available at the time of production. The above image should be used as a guide only.

Whilst care is taken to select the best materials, timber is a natural material that is expected to seasonally expand and contract over time and when subjected to temperature extremes. We use Ironbark and Cypress timber in our designs, Cypress timber in particular is prone to fine checking and knots are very common. Accordingly, timbers supplied may have checks and knots that are not structurally compromising.
