

Callistemon Boost

The Boost range offers an engaging play space featuring multiple slides, climbers, roof structures, and interchangeable cladding in various materials and colours. Their modular design enables customisable layouts by joining multiple towers together with bridges and climbers or connecting to our Spire Towers and standard play range. Additional play elements include climbing walls, rope bridges, and interactive panels. Tailored themes and accessibility options ensure an inclusive, imaginative, and physically active play experience for children of all ages.
